

2016 NASCSA Drug Abuse Trends Survey

Response ID:3; dpEKo9SAZB0F6DkjP Data

1. In what state do you work? **Kentucky**

2. (untitled)

2. Do you consider the abuse of promethazine in combination with codeine, other opioids or drugs to be a significant issue in your state?

Yes

3. Is your state experiencing any signs/trends of increasing abuse or diversion of promethazine in combination with codeine, other opioids or drugs and how would you characterize the scope the problem?

Significant increase

Comments: We are experiencing trafficking from other cities especially in the I-75 corridor, along with fraudulent prescriptions.

4. Has you state taken any measures to address the abuse or diversion of this product?

Monitoring drugs via the prescription monitoring program

Other: Sending alerts to KY pharmacists regarding fraudulent schemes.

3. (untitled)

5. Do you consider the abuse of gabapentin to be a significant issue in your state?

Yes

6. Is your state experiencing any signs/trends of increasing abuse or diversion of gabapentin and how would you characterize the scope of the problem?

Significant increase

Comments: Gabapentin is showing up in about 40% of KY drug overdoses. Not the cause of death, but present.

7. Has your state taken any measures to address the abuse or diversion of gabapentin?

Considering rescheduling

4. (untitled)

8. Do you consider the abuse of loperamine to be a significant issue in your state?

No

9. Is your state experiencing any signs/trends of increasing abuse or diversion involving loperamide and how would you characterize the scope of the problem?

No noticable increase

Comments: We anly can track controlled substances, and we are not aware of issues with loperamine

10. Has you state taken any measures to address the abuse or diversion of loperamide?

No

5.

11. What other drugs/chemicals have shown increasing signs/trends of abuse or diversion in your state?

Synthetic marijuana

Bath salts/incense

Fentanyl (synthetic)

Fentanyl (pharmaceutical)

Other drugs: Kratom

12. In your state are pharmacists permitted to "administer" controlled substances by injection?

Yes

Comments:

13. In your state are there currently any legislative, regulatory or other initiatives underway which would, in the future, permit pharmacists to administer controlled substances by injection?

Comments:

1. In what state do you work? **Pennsylvania**

2. (untitled)

2. Do you consider the abuse of promethazine in combination with codeine, other opioids or drugs to be a significant issue in your state?

No

3. Is your state experiencing any signs/trends of increasing abuse or diversion of promethazine in combination with codeine, other opioids or drugs and how would you characterize the scope the problem?

Minimal increase

Comments:

4. Has your state taken any measures to address the abuse or diversion of this product?

Monitoring drugs via the prescription monitoring program

3. (untitled)

5. Do you consider the abuse of gabapentin to be a significant issue in your state?

Yes

6. Is your state experiencing any signs/trends of increasing abuse or diversion of gabapentin and how would you characterize the scope of the problem?

Significant increase

Comments: With the scheduling of Carisoprodol to a scheduled drug, Gabepentin appears to have taken its place.

7. Has your state taken any measures to address the abuse or diversion of gabapentin?

No

4. (untitled)

8. Do you consider the abuse of loperamine to be a significant issue in your state?

Yes

9. Is your state experiencing any signs/trends of increasing abuse or diversion involving loperamide and how would you characterize the scope of the problem?

Significant increase

Comments:

10. Has your state taken any measures to address the abuse or diversion of loperamide?

No

5.

11. What other drugs/chemicals have shown increasing signs/trends of abuse or diversion in your state?

Bath salts/incense

Fentanyl (synthetic)

12. In your state are pharmacists permitted to "administer" controlled substances by injection?

No

Comments:

13. In your state are there currently any legislative, regulatory or other initiatives underway which would, in the future, permit pharmacists to administer controlled substances by injection?

Comments: I am unaware of any measures regarding this topic.

Other drugs: A study has not been conducted to make this determination.

12. In your state are pharmacists permitted to "administer" controlled substances by injection?

Comments: 32 MRS §13702, 28. Practice of pharmacy. "Practice of pharmacy" means the interpretation and evaluation of prescription drug orders; the compounding, dispensing and labeling of drugs and devices, except labeling by a manufacturer, packer or distributor of nonprescription drugs and commercially packaged legend drugs and devices; the participation in drug selection and drug utilization reviews; the proper and safe storage of drugs and devices and the maintenance of proper records for these drugs and devices; the administration of vaccines licensed by the United States Food and Drug Administration that are recommended by the United States Centers for Disease Control and Prevention Advisory Committee on Immunization Practices, or successor organization, for administration to adults; the performance of collaborative drug therapy management; the responsibility for advising, when necessary or regulated, of therapeutic values, content, hazards and use of drugs and devices; and the offering or performing of those acts, services, operations or transactions necessary in the conduct, operation, management and control of a pharmacy.

13. In your state are there currently any legislative, regulatory or other initiatives underway which would, in the future, permit pharmacists to administer controlled substances by injection?

Comments: 32 MRS §13841 1. Engage in collaborative drug therapy management. A pharmacist licensed in this State who meets the qualifications and requirements of section 13842 and rules adopted by the board may engage in collaborative drug therapy management pursuant to a collaborative practice agreement with a practitioner. [2013, c. 308, §4 (NEW) .] 2. Scope of authority. A pharmacist engaging in collaborative drug therapy management pursuant to subsection 1 is entitled to adequate access to a patient's history, disease status, drug therapy and laboratory and procedure results and may: A. Collect and review a patient's history; [2013, c. 308, §4 (NEW).] B. Obtain and check vital signs; [2013, c. 308, §4 (NEW).] C. Order and evaluate the results of laboratory tests directly related to drug therapy under the supervision of, or in direct consultation with, a practitioner and in accordance with approved protocols applicable to the practice setting and when the evaluation does not include a diagnostic component; and [2013, c. 308, §4 (NEW).] D. Initiate, monitor, modify and discontinue drug therapy for a particular patient pursuant to the collaborative practice agreement with a practitioner who is treating the patient, as long as the action is reported to the practitioner in a timely manner as determined by rules adopted pursuant to section 13846.
